

First Trimester Screening User Survey 2024

Eight users responded to our survey ranging from midwives, sonographers, Fetal Medicine Consultants, and maternity support workers. Responses were received for RUH Bath, UHBW and NBT.

Please tell us whether you agree or disagree with the following statements:

We're really pleased we scored well in all areas.

Can anyone involved with taking bloods be shown around the lab and explained screening processes so that when patients have questions we can answer them with our best ability.

We think this is a fabulous idea so are looking to implement visits to the lab.

Can't access Viewpoint therefore have 2 IT systems. Fetal medicine say that it isn't fit for purpose. May stop us moving to it in the future.

Unfortunately, we have no control over the IT systems used by each Trust.

Do you find the Severn Pathology website easy to navigate?

Four out of seven of you said yes. Three said no, but we noted some comments saying staff don't use it. If you have any ideas for how we can improve our content, please get in touch.
